

## INFORMATION ON POULTRY PROCESSED ANIMAL PROTEIN RENDERING PLANT

**COUNTRY:**

**RENDERING PLANT NAME:**

### TECHNICAL INFORMATIONS

No.	Information's Required	Explanation/Answer
1.	Identity & location of rendering plant <i>(name, address, contact person)</i>	
2.	Type of company <i>(Integrated with slaughterhouse?)</i>	
3.	Is the rendering facility dedicated for poultry PAP? <i>(please specify the species if there is mixed species processing)</i>	
4.	Type of product produced in the rendering plant <i>(please specify)</i>	
5.	Type of product intended for export <i>(please specify)</i>	
6.	Countries exported <i>(Please attach list of country/s)</i>	

7.	Source of raw material for the product (local/own plant/import)	
8.	Type of raw material ( <i>species, type of organ/tissue</i> )	
9.	Requirements and method to approve/determine the type raw material used for rendering (please attach supportive documents)	
10.	Processing of animal by-products conform to which procedure/any international procedure? (please attach supportive documents)	
11.	Does handling and storage facilities adequate to prevent cross-contamination? (please attach supportive documents)	
12.	Rendering process flow and summary for production of animal by-products  Summary of the process; <ul style="list-style-type: none"> <li>i. Material size reduction</li> <li>ii. Cooking/sterilization</li> <li>iii. Solid/Liquid separation</li> <li>iv. Tallow/Water Separation</li> <li>v. Solids Drying</li> <li>vi. Meal Milling</li> </ul> (please attach supportive documents)	

13.	Is there record for all raw materials & the production date	
14.	<p>Type of test done for the final product (MBM) and frequency of the test.</p> <p><i>Example of test:</i>  <u>Chemical:</u>  <i>Moisture, Fat, Protein, Ash, Calcium, Phosphorus, Crude Fiber, Sand &amp; Silica, Pepsin Digestibility</i></p> <p><u>Microbiological:</u>  <i>Aerobic plant count</i>  <i>Staphylococcus aerues</i>  <i>Salmonella</i>  <i>E-coli</i>  <i>Fecal streptococci</i>  <i>Clostridia</i></p> <p><i>(please attach supportive documents)</i></p>	
15.	<p>Availability of GMP &amp; HACCP Program  <i>(please attach the related documents)</i></p>	
16.	<p>Inspection by government  <i>(frequency and the parameters inspected)</i></p> <p><i>Example:</i>  <i>Inspected once a year and inspection conducted on the adequacy of records, microbiology testing, moisture content in MBM, temperature in the drier.</i></p>	

17.	Handling method of the processed product (Please attach supportive documents)	
18.	Traceability system of the product (Please attach supportive documents)	
19	Accreditations or registration with competent authority (s) in the country (please attach supportive documents)	

20. Declaration by the establishment:

I hereby declare that the information given are true and correct. The management of the company undertakes to comply with all requirement of the approval authority of the importing country.
